

1 July 2021

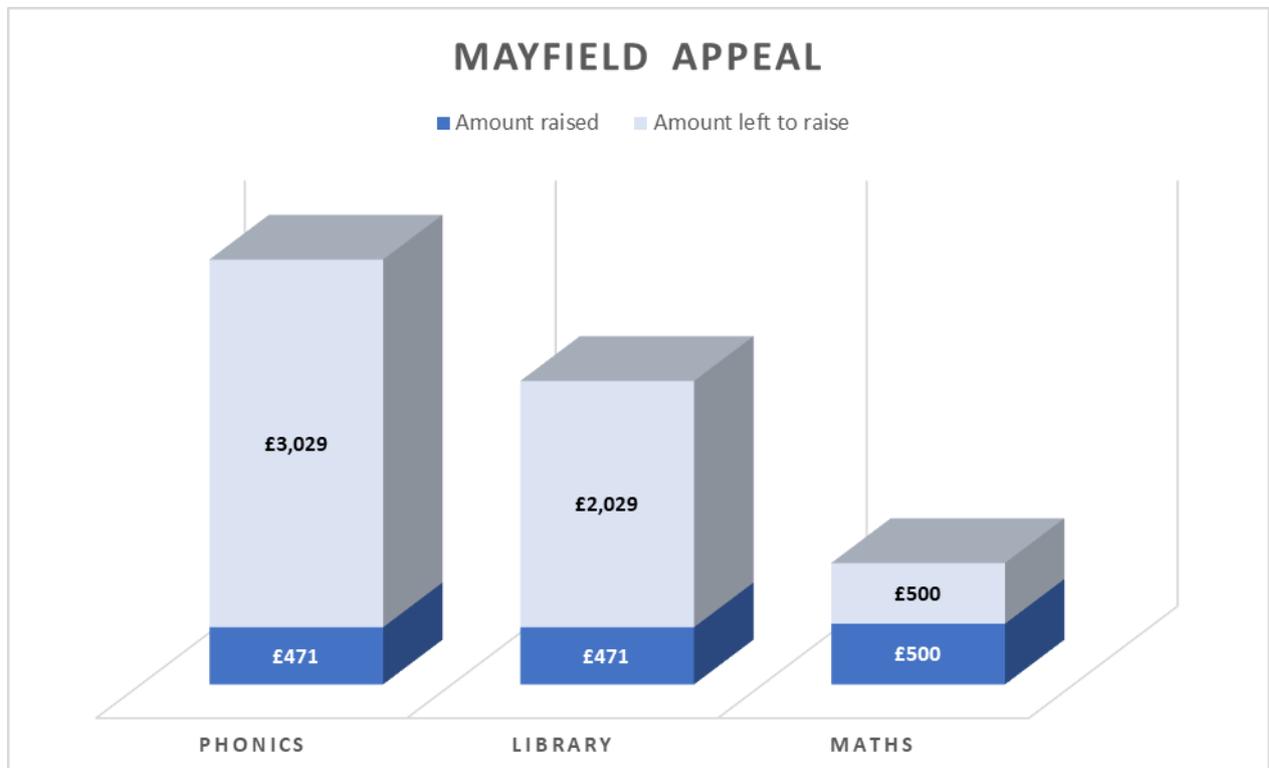

Dear Parents and Carers,

Excellent start to our special appeal

The governors and staff would like to say a big thank you to all of the parents, carers and grandparents who have responded to our appeal, launched at the end of May, to help our current funding situation.

We have set ourselves a target of raising a total of **£7,000**, which will be spread across three specific projects (see below). As of last week, we have raised a total of **£1,422**.

Although there is some way to go to achieve our end goal, we are hugely encouraged by this start – especially in the current economic climate.

There is one further area, however, where parents might be able to help us. We are aware that there are a number of corporations and charities who make a priority of donating funds and

awarding grants for educational purposes. If any parents know of potential donors, or better still work for organisations that regularly donate funds to causes like ours, we would greatly appreciate your feedback. Please email us on: office@mayfield.cambs.sch.uk

As a reminder, if you can and would still like to contribute to the school there are three projects that we are currently working on:

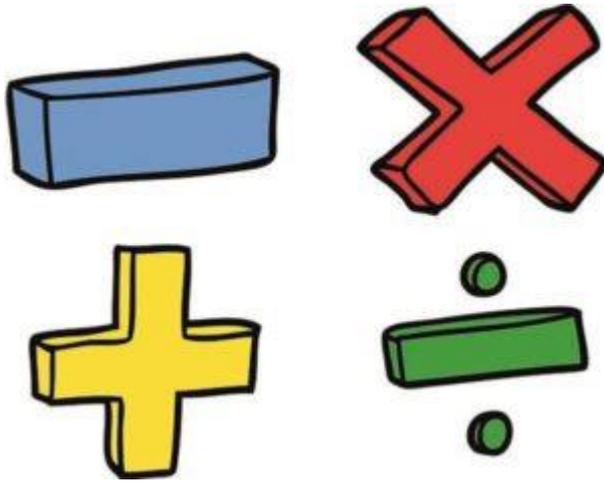

Phonics: We are reviewing and updating our phonics provision across the school. Our intention is that we will have reading books available for both home and school that match the children's phonetic understanding at each stage of their learning, in line with the latest government expectations. These expectations involve the purchase of an extensive and therefore costly reading scheme. **The cost of this project will be £3,500.**

A Library Computerised Borrowing/Cataloguing/Monitoring System which would offer:

1. Easy access – unlimited staff and pupil logins. Online anytime access to the library.
2. Everyday library and resource management – issues and returns, catalogue search, reservations, catalogue enrichment, overdue book reminders etc.
3. Engagement, reading and learning – pupil book reviews, recommended reads, access to books to support the curriculum. **The cost of this project will be £2,500.**

Maths – A Maths Mastery planning tool to continue to build expertise in the teaching of Maths Mastery and to provide supportive professional training for teachers new to Maths Mastery, as well as those already engaged with the teaching. For more information on Maths Mastery follow the link [HERE](#). **The cost of this project will be £1,000.**

If you would like to help with the success of these projects, please contribute via [ParentPay](#). If you are a Mayfield parent and have not yet set up a ParentPay account please contact the school office for your ParentPay details. If you are not a parent but would still like to donate please contact the school office.

Thank you so much for your support – we really appreciate it.

Yours sincerely,

Anna Chaudhri
Chair of Governors
